BACKGROUND

It is reported that by 2020, two billion people around the world will be studying English, as it continues to hold its place as the language of global business.

English has been spoken in India for over 400 years; however there exists a pressing need to improve the communication and spoken English skill among young graduates to make them employable in the increasingly competitive national and global market.

Our belief is that further developing teaching skills of English language educators in the education sector to an international benchmark will assist in enhancing the employability of the students they teach.
