Enhance skill sets for an incredible future!

IEC is all about personality transformation and enhancing the employability skills of students and career aspirants. We came into being to provide a 360-degree personality development to students for them to function at their highest potential.

Why do you think the Indian employable workforce is immense but only a handful of them are employed? It is because that there is a colossal gap between a student's academic knowledge and personal and professional growth. Our quest for excellence will be the stepping stone to their successes.

Why this training

We structure well-thought-of training schedule mainly for students. These intricately designed training is set in place by our onboard experts with a balanced blend of theoretical content and real-life scenarios to draw parallels. These are highly interactive sessions, where the students are expected to participate with gusto.

Students are taken over a journey in Personality Development and Aptitude as a 3 year program.

These training tunes each student to handle their future confidently. This opens a new world where confidently they can step in and grow in personal and professional life.

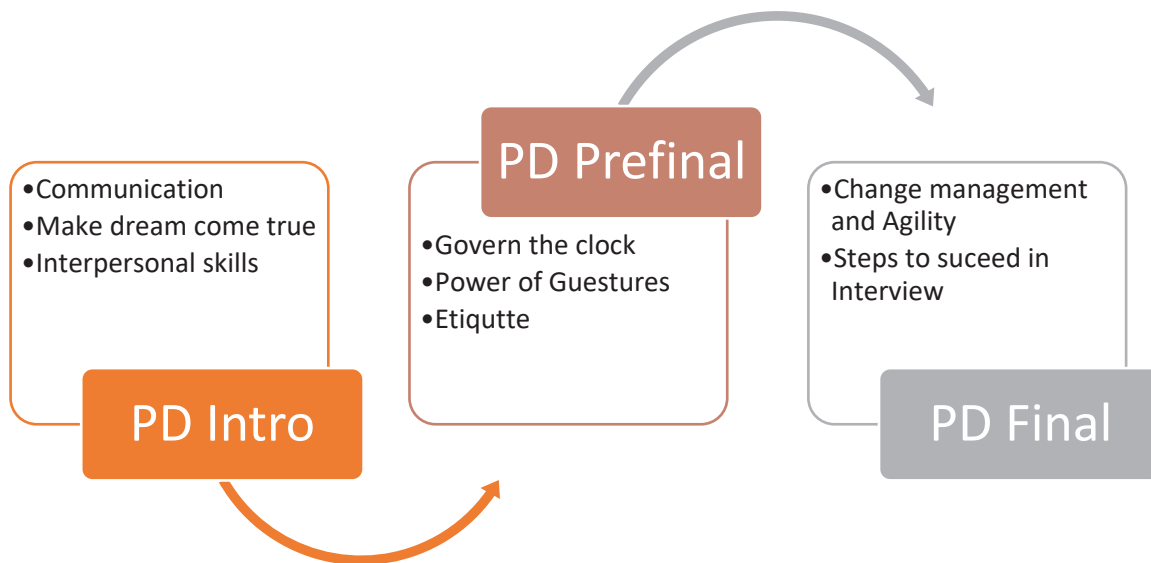

Why Identity

Those of us at Identity Consulting are an experienced group of experts from different fields who share a passion for teaching the children of today the skills they will need for tomorrow. We are from varied fields and backgrounds, but we all share the common goal of making the world a better place by teaching

1. Nationally and Internationally Certified Trainers

ACADEMIC YEAR: 2020 - 2021

Syllabus for ADD-ON Course – Programming Using PYTHON

Total No. of Hours = 30 Hours

Date : 7/04/2021 to 20/04/2021

Class : III BCA (Batch: 2018-2021)

Theory: 15 Hrs

Theory Syllabus

Units	Topics
1	Introduction to Python – Python Programming Language – Literals - Variables and Identifiers – Operators – Expressions and Data types.
2	Control Structures: Boolean Expressions – Selection Control – If Statement – Indentation in Python- Multiway Selection – Iterative control – While Statement – Infinite loops – Definite vs Indefinite Loops – Boolean flags and Indefinite loops. Lists: List structures – Lists in Python – Iterating over lists in Python.
3	Functions: Program Routines – Defining Functions – More on Functions: Calling Value – Returning functions – Calling Nonvalue Returning functions – Parameter Passing – Keyword Arguments in Python – Default arguments in Python – Variable Scope.
4	Dictionaries and Sets: Dictionary type in Python – Set Data Types.

Practical session: 15Hrs.

List Of Programs

1. Program to convert the given temperature from Fahrenheit to Celsius and vice versa depending upon user's choice.
2. Write a program to demonstrate all the arithmetic and relational operators
3. Program to calculate total marks, percentage and grade of a student. Marks obtained in each of the five subjects are to be input by user. Assign grades according to the following criteria:
 - Distinction: Percentage ≥ 75
 - First Class: Percentage ≥ 60 and < 75
 - Second Class: Percentage ≥ 50 and < 60
 - Third Class: Percentage > 40 and < 50
 - Pass: Percentage ≥ 40
4. Program, using user-defined function to find the area of Cube, Cuboid, Sphere and Cylinder by accepting suitable input parameters from user.
5. Program to display the first 10 Prime numbers.
6. Program to find factorial of the given number.
7. Write a Python program to count the number of even and odd numbers from N numbers.
8. Python function that accepts a string and calculate the number of upper case letters and lower case letters.
9. Python program to reverse a given string and check whether the give string palindrome or not.
10. Write a program to find the average of all items in a dictionary.
11. Write a Python program to construct the following pattern, using a nested loop
 1. *
 2. **
 3. ***
 4. ****
 5. *****
 6. *****
12. Write a Python program to generate a multiplication table from m to n numbers
13. Create a Turtle graphics window with specific size.
14. Write a Python program for Towers of Hanoi using recursion.
15. Create a menu driven Python program with a dictionary for words and their meanings.
16. Devise a Python program to implement the Hangman Game.
