## BACKGROUND

It is reported that by 2020, two billion people around the world will be studying English, as it continues to hold its place as the language of global business.

English has been spoken in India for over 400 years; however there exists a pressing need to improve the communication and spoken English skill among young graduates to make them employable in the increasingly competitive national and global market.

Our belief is that further developing teaching skills of English language educators in the education sector to an international benchmark will assist in enhancing the employability of the students they teach.

## ABOUT TEACHING KNOWLEDGE TEST (TKT)

Offered by Cambridge English Assessment, an International Benchmark

Teaching English is an enjoyable and rewarding profession that can create opportunities for a lifelong career that you can pursue in your own country. Teaching Knowledge Test (TKT) has been developed for people who

- ▶ Are already teaching, but would like to take an internationally recognized qualification to gain formal recognition for their experience.
- ▶ Want to enhance their career opportunities by broadening their teaching experience into specialist areas.
- ▶ Want to keep their teaching skills up to date.

Preparing for TKT will help you grow in confidence as a teacher and give you the knowledge and skills that will help you develop your career.
