Department of English Shift II

Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences using ICT Tools

With the objective of the department being to impart the students with essential vocabulary and grammatical skills, students are trained on Functional English so as to equip them both for higher studies and for better job opportunities. Special training is provided to make them proficient for national level competitive examination and for facing job interviews. The department predominantly aims at infusing moral and ethical values to ensure holistic development of students along with inculcating personal and professional etiquette through Soft Skills and Professional English Course. Stress monitoring sessions were conducted by the teachers of the department to help the students overcome anxiety regarding personal and academic pressures. Exclusive seminars and guest lectures are conducted during the academic year to motivate the students. Various student centric competitions are conducted by the department to help them showcase their talents. Language lab provides enhanced practical learning experience for building communication skills.

Quizzes are conducted on topics discussed using G-Form and Kahoot. The students are provided with experiential learning through audios and Videos like podcasts and Youtube for teaching Communicative English. Participative learning is encouraged as students are introduced to fun learning apps like “book widgets,” “word scramble,” “grammar wizard” and so on. An online picture puzzle activity was created for improving vocabulary.
