SUGGESTIONS
Summary

Most of the students felt that teachers motivated them adequately, explained the topic clearly, completed the syllabus on time,improved their thinking abilities, and provided guidance. They also felt that teachers had sound subject knowledge and good communication skills. Few students have opined that more practical sessions, increased usage of ICT Tools for teaching and e-resources has to be incorporated. They also thought that assignments, projects and industrial training had to be improved.

Suggestions

To incorporate more practical classes. Teachers must use more ICT tools. Library should be equipped with more e-resources, books and e- journals. Industry linked subjects should be integrated in the syllabus.More Projects and assignments have to be given.

Action Taken Report

Initiatives were taken to incorporate more practical sessions.Problem based methods case study analysis and internships were included in teaching pedagogy.More ICT tools like teaching tools, online learning resources, were introduced.More e-resources, books and journals were made available in the library.Students were exposed to more internships, industrial visits, workshops and training programs.Projects, assignments, experiential learning, survey analysis were included as part of teaching methodology.
